Detox Your Body of Chemicals & Heavy Metals
You want to feel your best and you’re on the right track. The Chemical and Heavy Metal Cleanse Program™ is an all-natural solution to detoxify your body of the chemicals and heavy metals we’re all exposed to every day in our food, water, and environment. The 30-day cleanse involves following a healthy diet and taking cleansing supplements. You’re going to be amazed by how you feel — more energy, clarity, and vibrancy are close. You can do it! And, remember, our award-winning Customer Satisfaction Team is here and ready to help. If you have any questions, don’t hesitate to reach out.

What’s In Your Program

**Zeotrex®**
2 Bottles, 1 oz
- Removes chemicals and heavy metals

**Detoxadine®**
1 Bottle, 1 oz
- Displaces chemical toxins from the thyroid

**Dr. Group’s Foot Pads**
30 sets, 60 total
- Advanced cleansing
How You Should Eat During This Cleanse

Whenever possible, choose foods that are fresh, organic, and locally sourced. Eat small meals throughout the day to support your digestive health. Include a wide range of colorful fruits and vegetables, and wash them thoroughly before eating. Make sure to eat plenty of healthy fats, oils, and plant-based protein. For more advanced insight into how to eat, check out the Body Cleansing Diet at ghc.us/cleanse-diet.

Foods That Encourage Chemical & Heavy Metal Cleansing

Below is a list of fruits and vegetables that help your body cleanse itself of chemicals and heavy metals. You can eat them individually or accentuate your diet with them.

- Barley Grass
- Cilantro
- Garlic
- Green Tea
- Parsley
- Wild Blueberries
Stay Hydrated & Enhance Your Water

A good rule of thumb for staying hydrated is to drink one half your body weight in ounces per day. Example: 160 pounds = 80 ounces of water. You can enhance your water by adding organic raw apple cider vinegar (a probiotic- and enzyme-rich tonic) or lemon juice to taste.
Minimize These Foods

Unhealthy foods are a major source of chemicals and heavy metals like arsenic, cadmium, and mercury. To minimize your exposure, reduce your consumption of the following foods as much as possible. Or, better yet, eliminate them from your diet entirely.

Foods That May Contain Cadmium

- French Fries
- Organ Meat
- Peanut Butter & Peanuts
- Potato Chips
- Shellfish
Foods That May Contain Arsenic

× Beer & Wine
× Brown Rice
× Chicken & Poultry
× Dark-Meat Fish Like Tuna, Mackerel, Salmon & Swordfish
× Packaged Grape & Apple Juice

Foods That May Contain Mercury

× King Mackerel
× Marlin
× Orange Roughy
× Shark
× Tilefish
Here’s the Plan

The Chemical and Heavy Metal Cleanse Program consists of following a healthy diet, taking Zeotrex and Detoxadine, and using Dr. Group’s Foot Pads for 30 days. Every morning, take 20 drops (1 ml) of Zeotrex straight from the dropper or mixed with purified water, and 3 drops of Detoxadine 20 minutes before your morning meal. In the evening, take another 20 drops of Zeotrex straight from the dropper or mixed with purified water 20 minutes before your evening meal. Apply one foot pad to the sole of each foot before bed.

Dr. Group’s Foot Pads

Dr. Group’s Foot Pads are made from all-natural tree and bamboo extracts, herbs and gemstones. They are the culmination of centuries of Japanese knowledge that have been passed down through generations. Foot pads are used to help cleanse and promote good health.

What Should You Expect?

Apply the foot pads to both feet before going to bed. In the mornings, you’ll see the results of the impurities that were removed while you slept. Simply peel off the foot pads to see that they’re discolored, dark brown, hard and bumpy, yellow, or gray in color, with the impurities they’ve collected from your skin. After repeated nightly applications, depending on your body, you may see that when you remove the pads, they’re not as discolored; this is a clear indication that cleansing was successful.
How to Apply the Foot Pads

**STEP 1**
Gently peel off the backing paper.

**STEP 2**
Apply the foot pad to the area of the foot you wish to cleanse. Press gently to ensure the pad is secure.

**STEP 3**
Repeat process for the other foot. Go to bed as normal. Pads should be left in place for eight hours or until the pads become discolored, hard, or damp.

**STEP 4**
Remove the used pads and discard the following morning. Avoid touching the discolored part as this now contains impurities that have been absorbed during sleep. Thoroughly cleanse the feet. Pads may not be reused.

Tip: Wear a light sock over the foot pads to avoid accidental displacement. Do not place foot pads directly over the eyes or open cuts.
What Is Reflexology?

Reflexology is an ancient healing art that uses reflex points on the bottom of the feet to activate organs and systems throughout the body.

Apply Pads to Specific Areas

Apply the foot pads to the upper (ball), middle (arch) or lower (heel) portion of the bottom of each foot.
Keep Track of Your Cleanse

✅ Check off each circle, take a picture of your progress, and share it on Instagram and Facebook using the hashtag

A conscious life supports your overall health and well-being. True wellness is the product of a lifelong journey.
Replace Your Fillings

Amalgam fillings contain mercury that can leak into the body. If you have amalgam fillings, find a natural dentist who can replace them with mercury-free alternatives.

Avoid Products That Contain Aluminum

Aluminum is the most widely distributed metal on the planet, and it’s used in the production of many everyday products. It’s especially toxic to the kidneys, brain, lungs, liver, and thyroid. To minimize your exposure to aluminum, avoid the following products.

- Aluminum Cookware
- Antacids
- Anti-Diarrhea Medication
- Antiperspirants
- Astringents
- Baking Powder
- Buffered Aspirin
- Cans
- Denture Adhesive
- Fireworks
- Foil
- Hemorrhoid Medications
- Lipstick
- Nasal Sprays
- Processed Cheese
- Toothpaste
- Vaginal Douches
**Use Supportive Therapies**

Chiropractic adjustments, massage, deep breathing exercises, acupuncture, and sauna bathing all support the cleansing process. Get enough sleep and start your day by finding a quiet space, closing your eyes, and repeating an affirmation such as, “I am clean and healthy” nine times to elevate your mindset.

**Strengthen Your Gut**

The probiotic colonies in your digestive tract help your immune system defend against harmful organisms. An advanced probiotic formula like Floratrex® offers extra support to strengthen the gut. Use as directed.
Supplement With Aloe

Aloe vera contains essential nutrients, enzymes, and amino acids that boost the body’s detoxification processes. A concentrated formula like Aloe Fuzion® is an easy way to support your cleanse, stimulate your immune system, and soothe stress throughout your body.
You Did It!

Completing the Chemical And Heavy Metal Cleanse Program is a huge step in supporting your health — congratulations! May this be the first of many steps on your journey to living a healthy life. As you continue, stay focused on your goals, form habits that will help you achieve them, and give us a call if you need support, advice, or guidance. We’re here to help you succeed!
What’s Next?

Upon completion of your cleanse, you will have Detoxadine left over. Continue to use as directed on the label for ongoing thyroid support. You can also purchase additional Zeotrex or Dr. Group’s Foot Pads and use each as directed on the label for maintenance cleansing. For more help, view our complete cleansing guidelines at ghc.us/complete-cleanse or contact our Customer Satisfaction Team.
